GUIDANCE & RESPONSE FOR COVID-19
Our Commitment to Your Safety

As a community, we face the challenge of preventing the spread of the Coronavirus (COVID-19). We want to assure you that our teams at Community Health Awareness Group continue to be committed to maintaining a clean and safe environment – for you and for us.

As always, we follow strict protocols for ensuring each patient care and waiting room area is cleaned frequently with the appropriate cleaners by following the Center for Disease Control (CDC) guidelines.

We ask that if you are just not feeling well, or have cold or flu symptoms please cancel your appointment as soon as possible. We will do our very best to reschedule your visit in the coming weeks.

We want you to know we are still working, trying to serve the needs of our clients/patients, the lives of our employees and the safety of the community. We will continue to do so until we deem it unsafe for our employees and those we serve, or until we are no longer able to due to government restrictions.

In order to continue working, we are spending time to educate our staff on safety measures as well as implementing new safety protocols so that during this difficult and ever changing time, the risk remains at a minimum.

Our goal is to maintain a balance between clients and patient’s needs, employees working, and ultimately stopping the spread of the COVID 19 virus. Because every client/patient encounter is unique, individual care decisions require independent medical judgement.

Also please keep in mind, as things change, we may decide to or be required to STOP working. We will do our best to inform you of such decisions.

USE GOOD HYGIENE PRACTICES TO PREVENT THE SPREAD OF CORONAVIRUS (COVID-19) AND OTHER RESPIRATORY DISEASES.

- Learn about the signs and symptoms of COVID-19. Symptoms include fever, cough, and difficulty breathing. Not everyone requires testing for this virus.
• HAND WASHING: Teaching Employees the proper hand washing requirements, use of sanitizing gels and disinfectants.

• The first line of defense is to stay healthy. You can boost your immune system by eating nutritiously, exercising, and getting enough sleep

• STAY HOME IF YOU ARE SICK, and advise others to do the same.

• Communicate and reinforce best practices for covering coughs and sneezes with a tissue or sleeve.

• SOCIAL DISTANCING: We are educating staff members that encounter others to stay away and give the proper social distancing mean six (6) feet away from each other per the CDC guidelines.

• Communicate and reinforce best practices for washing hands. Wash your hands often with soap and warm water for at least 20 seconds. Use an alcohol-based hand sanitizer with at least 60% alcohol if soap and warm water are not available. You can make your own by using 2 parts 99% rubbing alcohol with 1 part aloe vera.

• Clean and disinfect frequently touched objects and surfaces (computers, keyboards, desks, etc.). You can make your own disinfectant using ¾ cup of household bleach to 1 gallon of water.

• Implement social distancing measures as feasible. Substitute elbow taps or winks for handshakes.

PLEASE KNOW:
Now is not the time to panic. A Medical Director has provided us with the following link that puts COVID-19 in perspective. It is https://youtu.be/6dDD2tHWWnU. We encourage you to monitor the CDC website https://www.cdc.gov for additional information as this rapidly developing public health matter changes.

The entire staff of the Community Health Awareness Group is centered around enriching lives and keeping our community healthy. Thank you for your continued trust.
WHAT ELSE ARE WE DOING through 6/1/2020:

The following is a list of our actions through 6/1/2020. Please understand these steps may be extended or changed based on the directives from the CDC and our government officials.

**DAILY DEBRIEFINGS:** We have enacted multiple times per day debriefings with senior staff members to review current events, changes in operations, etc. so we can make the best decisions moving forward.

**CANCELLING NON-ESSENTIAL MEETINGS/GROUPS:** We have cancelled all non-essential meetings, groups and trainings. This includes CHAG’s psychosocial support group, TAP2 sessions, YAB, and Many Men, Many Voices (3MV).

**CANCELLING ALL INTERNAL/EXTERNAL MEETINGS AND TRAININGS:** We are cancelling all internal meeting and training sessions and replacing required ones with virtual meetings or video conferencing and video instruction.

**TRANSPORTATION:** Essential transportation for clients will continue and include PCP, ID, and Dialysis, and mental health, dental and urgent appointments that can be verified by a clinic. Again confirm the day of the appointment. Many places such as Secretary of State and DHS have gone to appointment only no walk-ins. All vehicles will be thoroughly disinfected following each client visit.

Clients will be screened for any cold or COVID-19 symptoms prior to pickups: Cough, cold, fever, chills, etc. If they express they are sick advise them to call their doctor for further directions and stay home. If personal transportation is required they will be asked to ride in the back seat to protect the client and staff.

**CASE MANAGEMENT:** All home visits are cancelled. Please conduct assessments/reassessments by phone (see transportation notes above).

**EARLY INTERVENTION SERVICES:** Confirm all client appointments the day of their appointment as things are changing daily, if your client does not answer their phone do not go to their home (also see transportation notes above). EIS on call is suspended for until 3/30/2020.

**TOBACCO CESSATION:** Screening and all client interactions will be by phone.
**HIV TESTING SERVICES**
Due to the close contact required during testing services, all routine HIV testing services have been suspended. Restoration of these services is being re-assessed in consultation with our federal and state funders. All social networking and outreach services are also suspended. Should you have an exposure to HIV within the past 72 hours and require nPEP or PEP, contact our medical partner, Be Well Medical Center for a telemedicine appointment. They may be reached at (248)544-9300. Should you require transportation to Be Well, please email CHAG at info@chagdetroit.org with your name and phone number and one of our staff will contact you to assist.

**LIFE POINTS SYRINGE EXCHANGE**
CHAG has increased its syringe exchange rate to ensure clients have access to clean sterile syringes during this public health crisis.

**In-house Syringe Exchange:** Life Points services for clients will continue in-house on a modified schedule OUTSIDE of the Life Points room only. For client protection all staff will implement strict universal precautions. This includes wearing gloves and a mask from the moment the client is greeted in the lobby. All clients must wear a mask or face covering to access services.

**Field Syringe Exchange:** Life Points has suspended field mobile services. The restoration of these services is being re-assessed based to ensure the safety of our clients and staff.

**STD/PREP CLINIC**
We have suspended our STD/PREP onsite clinic services. If you require PrEP or hormone medication refills please contact our offices and a Telemedicine visit can be scheduled with our Be Well Medical Team. Anyone requiring testing due to a recent exposure may also be seen through our partners at Be Well Medical. They may be reached at (248)544-9300. Should you require transportation to Be Well, please email CHAG at info@chagdetroit.org with your name and phone number and one of our staff will contact you to assist.

We appreciate your patience and consideration as we manage these difficult time. Please stay safe.
